Lions Install Officers

At the June 26th meeting of the Appomattox Lions Club held at the Parkway Restaurant, officers for the year 1975-76 were installed by Lion William C. Dudley.

Officers and Directors installed on Thursday evening are shown above from left to right: George W. Blanton, Director for two year term; Y. O. Mims, Immediate Past President; William Dudley, President; and James L. Hedrick, 1st President. Elected but not available for photo were James A. Beaty, Lion Tamer; C. G. O'Brien. Director for one year term.

Office Hours Announced By Clerk Of Court

According to an announcement by Mrs. Barbara Williams. Clerk of the Circuit Court of Appomattox County, office hours for the Clerk's office are 9 a.m. to 4:30 p.m. Monday through Thursday and from 9 a.m. through 5 p.m. on Friday.

The office will be open during lunch hour each day. These office hours are effective from July 1, 1975.

Reappointed To School Board

J. Berkley Drinkard, Jr. has been reappointed to the Appomattox County School Board representing Clover Hill District for a term of four years, according to an announcement made by Stuart Farrar, Chairman of the School Electoral Board.

Town Has Artesian Well

Harold Nash, Superintendent for the Town of Appomattox, left above, and Pete Martin and Billy Guthrie, employees of Fred Jones Well Company, look on as water gushes from just-drilled well located on Secondary Route 1009 near Meadowlark Sub-Division northeast of the Town of Appomattox. The well is producing an estimated 175 gallons of water a minute making it the best well the town has yet developed. Preliminary chemical test indicate a well of good quality, however, detail tests will be run when the well is further developed.

One of the very few artesian wells in the area, it is of great significance that it will not have to be pumped through the booster pump-station to get to all of the area north of the N & W railroad tracks.

The Town of Appomattox has previously developed wells basically in the same general area, this well being developed in a different area therefore means tapping a different water source.

ROB MCDONALD tries one of Diamond World Championship Rodeo Co.'s bulls at Brookville Ohio Rodeo.

Rodeo Has IRA Approval

The upcoming Diamond World Championship Rodeo, slated for July 12 at 8 p.m. and July 13 at 2 p.m., has been given official approval by the International Rodeo Association, making it a truly professional rodeo.

The rodeo will attract IRA cowboys from several states and all of them will be competing for $10,000.00 in prize money and championship points.

Professional cowboys and cowgirls can win points toward a championship in the IRA only by competing at sanctioned IRA rodeos.

What does the IRA sanction mean?

It means simply that the Diamond World Championship Rodeo will be a professional event conducted under the rules of the IRA and has the approval of that organization.

The Diamond World Championship Rodeo is one of approximately 300 rodeos sanctioned for IRA members to compete in this year. These rodeos are located in communities from coast to coast and border to border.

Mainly, the IRA sanction guarantees professionalism in all aspects. Only those cowboys

Jaycees Install Officers

At their meeting on Thursday, June 26, officers for the new year were installed for the Appomattox County Jaycees.

Officers are shown above, left to right, Addison Elder, President; Tommy Ford, External Vice President; Cecil Nash, State Director; Tom Shupe, Past President; Raymond Mullins, Treasurer; Bill Burke, Secretary; and Leon Myers, Past State Vice President and Installing Officer. Irie Mays, not shown above, is Internal Vice President.

School Board Approves Five Year Plan

As a part of the State Standards of Quality program, each school division is required to submit a five-year school improvement plan revised and up-dated annually. The first five-year plan for Appomattox County Schools was submitted to the State Department of Education in June, 1974. The revised and up-dated plan for the five-year period July 1, 1975-June 30, 1980 was approved by the Appomattox County School Board in session Thursday night, June 26th.

The plan includes fifteen objectives: 1) By September, 1975, fourth grade pupils will obtain a mean score in reading and mathematics achievement greater than their mean ability score as measured by standardized tests. 2) By September, 1976, sixth grade pupils will obtain a mean reading and mathematics achievement score equal to or greater than their mean ability score as measured by standardized tests. 3) By September, 1977, ninth grade pupils will obtain a mean achievement score in reading and mathematics greater than their mean ability score as measured by standardized tests. 4) By September, 1978, eleventh grade pupils will obtain a mean reading and mathematics achievement score greater than their mean ability score as measured by standardized tests. 5) By June, 1976, 97 percent of students leaving school (graduates and dropouts) and not continuing formal education will have a job entry skill as determined by the completion, or the completion of part of, an occupational preparation program of vocational education. 6) By June, 1977, 87 percent of ninth grade students in June, 1974, will graduate from high school. 7) Between September 1, 1975, and May 1, 1976, 350 adults will receive instruction on an individual or group basis through the continuing education program in adult basic education, general educational development and/or general and vocational education. 8) By September, 1976, all handicapped students, grades K-12, will be enrolled in programs or receive services designed specifically to meet their educational needs. 9) By September, 1976, three percent of the enrollment will be participating in programs which are designed to enrich and supplement the regular program of instruction. 10) By September, 1976, citizenship concepts and attitudes of pupils will be improved as determined by teacher observations, pupil questionaires, reduction in discipline problems and reduction in drop-outs. 11) By September, 1976, physical and emotional development of pupils will be improved as determined by teacher observations, pupils records, psychological services, discipline problems, and attendance. 12) By September, 1976, music appreciation and understanding by pupils will be improved as determined by teacher observations and pupils records. 13) By September, 1975, student creativity will be improved as determined by teacher observation and pupil records. 14) By January 1, 1978, all public elementary schools in Appomattox County will be accredited by the Southern Association of Schools and Colleges. 15) By January 1, 1980, the Appomattox County High School and the Appomattox Middle School will be accredited by The Southern Association of Colleges & Schools.

A section of the plan includes accomplishments in the school division during 1974-75. One of the most important accomplishments is the achievement of pupils. Test scores and teacher observations give evidence that Appomattox County pupils made very significant progress in 1974-75 compared to previous years. "This achievement is

CARE Gets Donation From Woman's Club of Appomattox

The Woman's Club of Appomattox, at a meeting of the Executive Board on Thursday evening, June 26, made a donation to C-A-R-E (Campaign for Additions, Renovations and Efficiency) in the amount of $1,000.00. The donation given in honor of Mrs. Roger Norfleet, club member, and in memory of Mrs. J. L. Gordon, club member deceased, both cancer patients, and was earmarked to apply to the installation of a cobalt machine that is included in the C-A-R-E program.

Standing in the photo above, left to right are, Mrs. Lloyd Hudson, Publicity Chairman; Mrs. H. Webster Babcock, President of the Club; Dr. James Lynde, Chief Radiologist at Lynchburg General-Marshall Lodge Hospital who accepted the donation; Mrs. Frank Chuchek, Treasurer; and Mrs. Charles Hill, 1st Vice President; and seated are Mrs. Clifford Plunkett, Historian; Mrs. J. B. Terry, Year Book Chairman; and Mrs. W. E. Chenault, Recording Secretary.

On March 5, 1974 Lynchburg General Marshall-Lodge Hospital announced it would seek $2,000,000 in contributions to remodel and renovate overcrowded patient-service departments. Dr. Lynde told members at the meeting that the entire program will cost $4.5 million. The laboratory will be enlarged, the radiology department will be doubled in size and an additional 4,500 square feet of new construction is underway, a part of which will house equipment for the new cobalt theraphy, a treatment for which area residents numbering at least 200 a year must presently travel to Charlottesville, often daily for periods of up to six weeks. Cobalt theraphy has been called the region's number one health care need by the Lynchburg Academy of Medicine and the Central Virginia Health Planning Council and the Woman's Club of Appomattox is proud to be able to play a small part in making this program become a reality. Dr. Lynde noted that the cobalt machine will be a "Siemens", made in West Germany and will be the first of its kind in America. "Siemens" equipment is used throughout the Radiology Department at Lynchburg General and is considered to be the best available. In approximately one and one-half years, the C-A-R-E project will be completed and the cobalt machine will be installed and in use.
